Course Descriptions

Study Skills and Strategies for Success: These small-group classes are designed to teach students the study and organizational skills they will need for lifelong academic success. Topics include: organization of one's study space, materials, assignments, and time; and essential essay writing and study skills, including note-taking and outlining, how to create and effectively use a study guide, and how to study for and take tests in a stress-free way.

Math Kick Start Classes: Provide a comprehensive review and reinforcement of previously learned material and an introduction to key concepts students will need for success in the upcoming year.

*Min. class size of 4 students. Max. class size of 13 students. Individual and semi-private are sessions available. Contact us for pricing and details.

*Discounts given for multiple classes (contact us for more details).
